

Choosing a Major

上个学期专业我选好了。对我来说，跟数字打交道很容易和很有意思，所以选专业的时候，我选金融。这个学期我选了五门课：英文，经济学，世界史，数学，和化学。三门课一般容易，至于其他的课有很难。一是中文课，另外一是世界史。觉得中文课很难因为什么汉子都不知道写。世界史很难因为你写很多的文章。化学我喜欢是喜欢，就是功课有一点儿多，所以我觉得化学不容易也不难。我写文章写得太不好了。我很喜欢数学和经济学。我觉得数学跟经济学差不多好，因为在这门课我跟数字打交道。

虽然我想选文学，我的父母有一个意见。我的父母希望我要么选电脑学要么选医学院。对父母来说我的将来最重要，所以他们说我选这两专业因为赚钱很大，也找工作很容易。父母也想我那双学位，但是双学位的时候我没有时间，所以我受不了。

在文学, 哲学, 什么的找工作有一会儿难, , 所以毕业以后我想念研究生上管理学院, 因为我也喜欢跟人打交道。我也想去美国的大学因为为了提高英文水平, 你应该跟美国人聊天儿。要是在中文你可以说英文找工作越来越容易。

Translation:

Last semester, I chose my major. For me, dealing with numbers is easy and interesting, so when choosing a major, I chose finance. This semester, I've chosen five courses: English, economics, world history, mathematics, and chemistry. Three of the courses are generally easy, while the other courses are quite difficult. One is Chinese class, and the other is world history. I find Chinese class difficult because I don't know how to write any characters. World history is tough because you have to write many essays. I like chemistry, but there's a bit too much homework, so I think chemistry isn't easy but not too hard either. I'm not good at writing essays. I really enjoy mathematics and economics. I think mathematics and economics are equally good because in these courses, I deal with numbers.

Although I wanted to major in literature, my parents have a different opinion. They hope I either major in computer science or go to medical school. For my parents, my future is the most important thing, so they said I should choose one of these two majors because they offer good earning potential and finding a job is relatively easy. My parents also wanted me to pursue a double major, but I didn't have time, so I couldn't handle it.

Finding a job in fields like literature or philosophy can be a bit challenging, so after graduation, I'm considering pursuing a master's degree in business school because I also enjoy interacting with people. I also want to go to a university in the United States because conversing with Americans will help improve my English skills. If you can speak English along with Chinese, finding a job becomes easier and easier.
