

Part Time Jobs

很多父母希望他们的孩子能受到良好的教育。所以，孩子一生下来，父母就开始给他们存钱。虽然很多父母的工资收入不低，但是他们得供孩子，或者几个孩子，上大学，给父母一些经济压力。所以，很多学生常常用奖学金交学费，或者他们会申请政府的学生贷款。

有的孩子不知道他们的父母的经济负担很重。他们不是乖孩子，跟父母借钱，常常乱花钱。他们不是买衣服，就是点外卖，欠了银行很多钱。这给了父母更大的压力。但是，有的学生会帮助他们的父母。要是奖学金和政府的贷款不够，学生成了大人以后，他们想打工来减轻父母的经济负担。说到打工，学生做很多不同的工作。有的当服务员，有的当家教。学生还可以做翻译，管电脑，遛狗喂猫，什么的。

学生打工有很多好处。他们可以取得一些工作经验。学生也可以打工来自己挣零用钱,所以他们想怎么花钱,就可以怎么花钱,很自由。另外,要是父母得供做几份工作供孩子上学,他们可以休息一下,只得做一份工作,因为他们的孩子也挣钱。

但是,打工也对学生很多坏处。一边打工一边读书不适合学生,因为打工常常影响他们的学习。他们每天下课以后,都得去打工,所以他们不能把功课做完。另外,一边打工一边读书常常对身体健康不好。学生每天都累死了,能考得好吗?所以,要是你想打工,我觉得你得小心一点儿。虽然打工有很多好处,但是打工也可能影响你的学习。学生只应该暑假的时候打工。这样,学生可以专心学习。

Translation:

Many parents hope their children can receive a good education. Therefore, as soon as a child is born, parents start saving money for them. Despite the fact that parents may have decent incomes, they still have to provide for their children, possibly multiple children, to go to college, which puts some financial pressure on them. As a result, many students often use scholarships to pay tuition fees, or they might apply for government student loans.

Some children are unaware of the heavy financial burden their parents carry. They are not well-behaved and borrow money from their parents, often spending money recklessly. Instead of saving, they buy clothes or order takeout. This adds even more pressure on the parents. However, some students will help their parents. If scholarships and government loans aren't enough, once students become adults, they might choose to work to ease their parents' financial burden. Speaking of part-time jobs, students engage in various kinds of work. Some work as waiters, some become tutors. Students can also do translation, manage computers, walk dogs, feed cats, and more.

There are many benefits to students working part-time. They gain work experience, and they can earn their own pocket money, granting them freedom in how they spend it. Additionally, if parents are working multiple jobs to put their children through school, they can have some relief and work only one job, as their children are also earning money.

However, working part-time also has its drawbacks for students. Balancing work and studies isn't suitable, as working often impacts their learning. After classes, they head off to work, leaving them little time to complete their assignments. Furthermore, juggling work and studies can negatively affect their health. If students are exhausted every day, how can they perform well in exams? Therefore, if you're considering working part-time, I believe you should

be cautious. While there are many advantages to working, it can also impact your studies.

Students could work during the summer break. This way, students can fully focus on their studies.
