

Shopping

我很喜欢买东西。我常常跟我的朋友一起去购物中心买东西。因为我没有车，我非请我的朋友帮我不可。她常常从她的家开车来我的家接我。然后，我们一起开车到购物中心。在购物中心，我常常买很多东西，像牛仔裤，T恤衫，毛衣，什么的。我也常常买很多日用品，比方说，牙膏，洗衣粉，卫生纸，毛巾。

我的朋友觉得我买衣服的标准很高。我跟我的朋友同意，因为我样子，质量，价钱，大小，都在乎。我的牛仔裤的大小得对我合适，要不然我不会买。我买的毛衣都又时髦又好看。再说，我买的衬衫的质量好，常常是纯棉的，所以我穿衬衫的时候，觉得很舒服。

买东西的时候，我的朋友常常只买名牌的。他们觉得名牌的衣服很时髦。名牌的衣服时髦是时髦，但是我不需要买名牌的，因为太贵了。为了省钱，我只买便宜的衣服。要是我很喜欢一件衣服，但是不太便宜，我只好不会买那件衣服。如果样子，质量，价钱都很好的

话, 无论什么牌子, 我都会买。我觉得我说的有道理。

付钱的时候, 我常常用信用卡还是用现金买东西。因为我买很便宜的衣服, 我常常只买打折的衣服。这是我的买东西的标准。

Translation:

I really enjoy shopping. I often go to the shopping center with my friends to buy things. Since I don't have a car, I have to ask my friends for help. She often drives from her home to pick me up at my place. Then, we drive together to the shopping center. At the shopping center, I often buy a lot of things, like jeans, T-shirts, sweaters, and so on. I also often buy a lot of everyday items, like toothpaste, laundry detergent, toilet paper, towels.

My friend thinks I have high standards when it comes to buying clothes. I agree with my friend because I care about things like style, quality, price, and size. My jeans have to fit me well, otherwise, I won't buy them. The sweaters I buy are both stylish and good-looking. Moreover, the shirts I buy are of good quality and often made of pure cotton, so when I wear them, I feel very comfortable.

When shopping, my friends often only buy branded items. They think branded clothes are very stylish. Branded clothes might be stylish, but I don't need to buy branded items because they're too expensive. To save money, I only buy inexpensive clothes. If I really like a piece of clothing but it's not very cheap, I usually won't buy it. If the style, quality, and price are all good, no matter the brand, I'll buy it. I think what I'm saying makes sense. When it comes time to pay, I often use a credit card or cash to buy things. Since I buy very cheap clothes, I often only buy discounted items. That's my shopping standard.
