

Summer Break

暑假快到了。我和我的朋友想一起去中国玩儿一个月。我对中国的地理比我的朋友更了解，所以我得做我们的旅行计划。我知道中国的的面积比美国的面积差不多一样，但是中国的人口很多，是美国的四倍多。我听说过节或者放假的时候，去中国的景点的人多了起来。所以，景点到处人山人海，挤得很。所以，我觉得学生没有放假的时候，去中国旅游最好不过了。

我对哈尔滨很有兴趣。哈尔滨的天气不错，夏天不太热。但是，我在网上看过哈尔滨的冰灯，好看极了。虽然哈尔滨的冬天很冷，我很早就想看哈尔滨的冰灯。所以，这个暑假，我和我的朋友不会去哈尔滨。冬天的时候，我们会去。

另外，中国的西北部有沙漠，自然条件不太好。所以，我觉得我和我的朋友不应该去西北部。

中国的北部有北京, 天津。中国的东南部有上海, 南京。我对这个城市都很有意思。虽然中国火车的路线很多, 我们一下子不能从北部跑到东南部去。但是, 我们打算去中国玩儿一个月, 所以我們有很多时间。我们打算去北京和南京。因为, 北京是中国的首都, 是一个旅行的好地方。我也听说南京是一个特别的地方。

中国有很多河流, 比方说长江, 黄河, 什么的。他们大多是从西往东流, 因为中国的西部是高原, 而中国的东部是平原。在长江和黄河上, 你可以坐船。虽然坐船花很长时间, 但是我听说长江和黄河的风景很漂亮。所以我和我的朋友打算坐船看长江和黄河。

中国的南部有很多地方, 比方说广州, 深圳, 云南, 什么的。云南是一个省。我听说云南的天气很好, 不太热也不太冷, 有的地方四季如春。云南的风景很漂亮。另外, 云南有很多少数民族。所以, 我觉得没有比云南更好的了。所以, 除了北京, 南京以外, 我和我的朋友也会去云南旅行。

Summer vacation is approaching. My friends and I are planning to go to China together for a month. I have a better understanding of China's geography than my friends, so I have to make our travel plans. I know that China's area is about the same as that of the United States, but China has a much larger population, more than four times that of the United States. I've heard that during holidays or breaks, there's a surge of people visiting tourist attractions. As a result, tourist spots are packed with crowds everywhere. Therefore, I think it's best to travel to China when students aren't on vacation.

I'm very interested in Harbin. The weather in Harbin is nice, not too hot in the summer. However, I've seen Harbin's ice lanterns online, and they're incredibly beautiful. Even though Harbin's winter is very cold, I've wanted to see Harbin's ice lanterns for a long time. So, this summer vacation, my friends and I won't go to Harbin. We'll go during winter.

Additionally, there's a desert in the northwest of China, with unfavorable natural conditions. So, I think my friends and I shouldn't go to the northwest.

In the northern part of China, there are cities like Beijing and Tianjin. In the southeast, there are Shanghai and Nanjing. I find these cities very interesting. Although China has many train routes, we can't travel from the north to the southeast in one go. But since we plan to spend a month in China, we have plenty of time. We intend to visit Beijing and Nanjing. Beijing is the capital of China and a great place for travel. I've also heard that Nanjing is a special place.

China has many rivers, such as the Yangtze River and the Yellow River. Most of them flow from west to east because the western part of China is a plateau, while the eastern part is a plain. You can take a boat on the Yangtze and Yellow Rivers. Although it takes a long time to

travel by boat, I've heard that the scenery along the Yangtze and Yellow Rivers is beautiful. So my friends and I plan to take a boat to see the Yangtze and Yellow Rivers.

In the southern part of China, there are many places like Guangzhou, Shenzhen, Yunnan, and more. Yunnan is a province. I've heard that the weather in Yunnan is great, not too hot or too cold, and some places have a perpetual spring-like climate. The scenery in Yunnan is stunning. Additionally, Yunnan is home to many ethnic minorities. So, I think there's no better place than Yunnan. Besides Beijing and Nanjing, my friends and I will also travel to Yunnan.
